

## Launch is Reopening!

We're so excited to see you soon. You will notice some changes at the clinic to ensure everyone's health and safety.

	<h3>Screening</h3> <p>At the clinic, pick up and drop off will be outside. We will ask you questions about your health related to COVID-19 symptoms* and recent travel. We will take your child's temperature with a contactless thermometer. Once you clear the screening process, a therapist will pick up your child outside.</p> <p>If your child has a fever (37.8 C) or does not pass the screening questions, they will not be permitted to enter the clinic. Unfortunately, we cannot allow parents or visitors inside, except for emergencies.</p>
	<h3>Personal Protective Equipment (PPE)</h3> <p>Our staff will look different when you see them. They will be wearing face shields or face masks. Gloves and masks will be used throughout the day for other activities, such as toileting. Your child will not be required to wear PPE.</p>
	<h3>Physical distancing</h3> <p>Your child and therapist will have a workstation in the clinic. This is an area that will have all their toys, materials, and other belongings. It will be at least 2 metres away from others in the clinic. Initially, each child and therapist will have their own room.</p> <p>We must temporarily stop our circle time and group snack/lunch activities, given social distancing requirements.</p>
	<h3>Cleaning</h3> <p>We will be spending extra time cleaning all toys, materials, and high touch areas of the clinic using cleaning materials that are safe and approved by Health Canada**</p> <p>Your child's workstation will be cleaned after each session. High touch areas will be cleaned twice a day. Washrooms will be cleaned after each use.</p> <p>The entire clinic will be cleaned at the end of each day. A thorough cleaning by a professional cleaning company will be completed weekly.</p>
	<h3>Sharing information</h3> <p>We will be keeping an attendance list of who is in the clinic and their screening results for the purposes of contact tracing. If we need to share this with public health, we will share the least amount of information required.</p>

\*Please refer to the attached list of COVID-19 symptoms.
